

Reverse Boom Floor Crane 600 Series

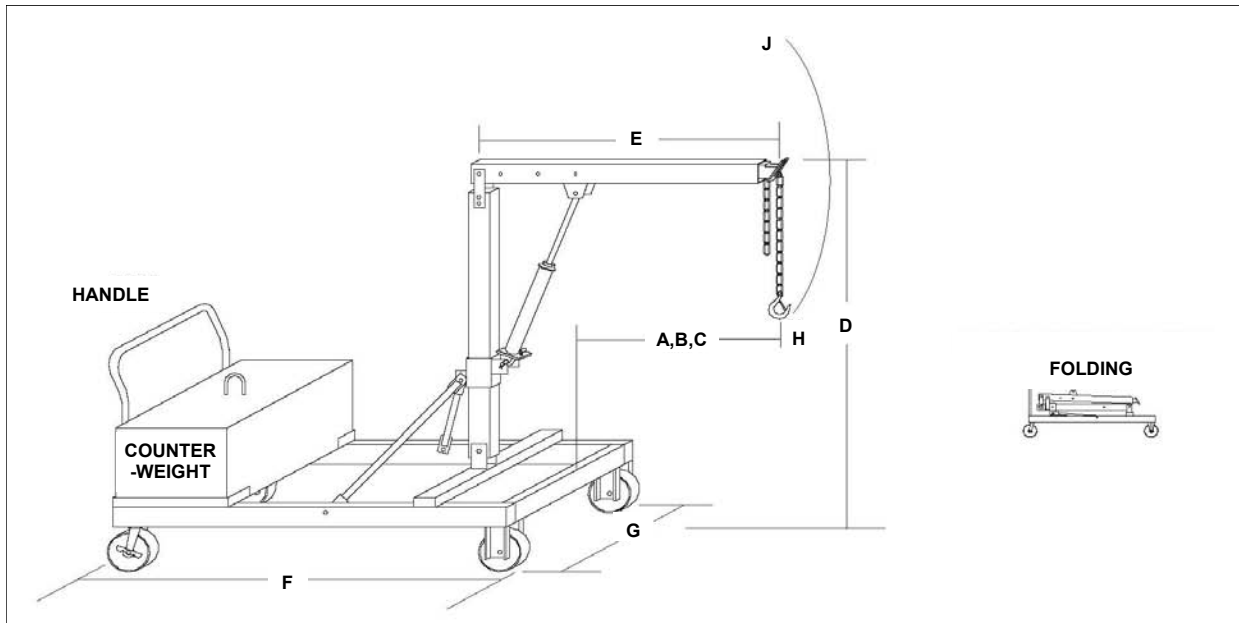

Reverse Boom Floor Crane

Reverse Boom Floor Cranes

Useful for supplying materials to production areas not serviced by overhead cranes. This counterweight design allows crane to be close to item being lifted without obstructions by the legs. Equipped with roller bearing wheels, swivel wheel foot brakes, manual pump, adjustable chain and hook, safety pins, push handle and counterweight. RC10 and RC20 models fold up for compact storage and transportation.
